## EXPERIENCE

### WAY2SKILLS | INTERN

Namakkal - Remote | Jan 2025 - May 2025

- Working as a software engineer, focusing on developing real-world applications.
- Engaging in solving practical problems while expanding knowledge across various domain fields.
- Primarily enhancing skills in backend engineering.
- Collaborated with cross-functional teams to design scalable APIs.

### WEBSINO TECHNOLOGY | INTERN

Namakkal - Remote | July 2023

- Gained hands-on experience in front-end technologies, including HTML, CSS, and JavaScript.
- Developed projects using Git, GitHub, and version control systems.
- Assisted in UI/UX design improvements based on user feedback.
- Created responsive web pages optimized for multiple devices.

## PROJECTS

### QUIZ APP | FULL-STACK DEVELOPER

- Developed a quiz app using FastAPI backend, enabling efficient data processing.
- Built frontend with ReactJS and integrated an LLM (Llama) for dynamic question generation.
- Connected frontend and backend, managing API communication.

### ROADMAP GENERATION | BACKEND DEVELOPER

- Built a roadmap generation app based on academic curriculum.
- Implemented using FastAPI, ReactJS, Reactflow, and MongoDB.
- Utilized Gemini model for context generation and application logic.

## ACHIEVEMENTS

- Winner of HACK \$ DAY - Global hackathon series powered by 0xDay.
- First place in Technical Quiz - Chettinad College of Engineering & Technology.
- First place in Paper Presentation - Paavai College of Engineering.
- Second place in Dark Code Event - Paavai College of Engineering.

## INTERESTS

Backend Development, API Management, Cybersecurity, Artificial Intelligence

## VOLUNTEERING

Mentored friends with problem-solving and technical ideas.  
Volunteered in a technical symposium as a coordinator.
